# COLOUR YOUR WORLD WITH CALLIGARIS!

The Calligaris sofa range features a series of covers in high quality fabrics, both plain and patterned. There's something for everyone!

## Our fabrics are ready for anything!

The special **NATUR SPHERE SYSTEM** treatment based on inert nanospheres protects the fabric against dust, repels stubborn stains and keeps it looking new and feeling soft for longer.

The **SILVER PROTECTION** silver ion treatment has anti-microbe, antibacterial and antifungal properties. SILVER PROTECTION acts as a protective shield, disinfecting the treated fabric, resisting the formation of unpleasant smells and preventing the development of allergic phenomena.

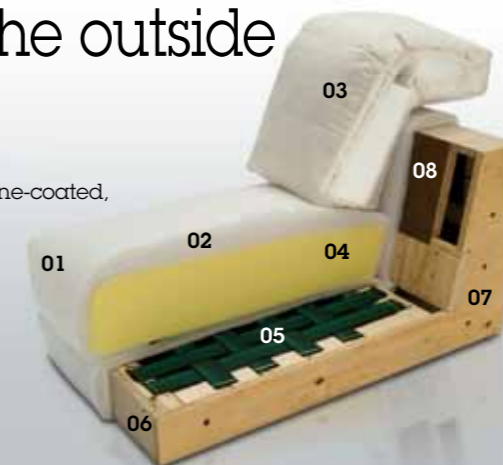

The exclusive **Teflon STAIN RESISTANT TREATMENT** protects fabrics against dry dirt and against stains containing water or oil. **Teflon** does not alter the appearance and quality of materials, requires no extra care for maintenance and does not affect the washability of fabrics.

## Resistant on the outside

01. Inner cover in jersey-backed resinated fabric.
02. Heat-bonded wadding.
03. Mix of goose feather and silicone-coated, hollow polyester fibre.
04. Padding in stress-resistant, differentiated density polyurethane foam.
05. Elastic straps.
06. Plywood and chipboard cladding.
07. Solid pine structure.
08. Masonite panelling.
